Please, share your impressions on studying at yo

There is none

Studying in this program has been a positive experience overall. The courses provide useful knowledge, and many lecturers are supportive and motivated. However, there is sometimes a lack of practical activities and real-life examples, which would help students better understand the material.

I would recommend organizing more workshops or guest lectures with professionals, and improving communication with students. These changes would make the program more effective and better prepare students for future careers.

Please, share your impressions on studying at

In fact, I can't say anything bad, the material is provided in sufficient quantity, enough time is given for studying, and the lecture recordings are generally a great option, because due to my own circumstances it is difficult to attend them.

Please, share your impressions on studying at yo

An interesting course, the only thing I don't really like is too many digital tech classes in one week

Please, share your impressions on studying at yo

No problem i will say , as it easy to access the lectures and communicate with them regardless how busy they are

Please, share your impressions on studying at yo

First of all im literally satisfied but what id change is id ask lecturers to give more attention to emails or teams as we are writing to them and they check them either too late or either not at all

Please, share your impressions on studying at yo

The program provides a solid theoretical foundation in strategy. It's understandable that we can't have more practical leadership training due to the situation in the country. So, I would just recommend building more on the online simulations.

16. Please provide suggestions for improving the studies at your Educational Program
